

About the Dietrich School Scientific Stockroom

The Dietrich School of Arts and Sciences launched the Dietrich School Scientific Stockroom (DSS), by unifying operations of the former Biological Sciences and Chemistry Stockrooms. This change to operations streamlined ordering and improved service to University end users, our customers. The excellent stockroom team is here to help our customers. Partnered with Unity Lab Services-Fisher Scientific, the DSS is a PantherExpress System punch-out supplier. DSS customers can order from the comfort of their office or lab, then have their supplies delivered directly to their building. Additionally the DSS Stockroom is operated with a focus on sustainability. We consolidate all of our stockroom orders when possible. We also reuse cardboard boxes and packing material for other shipments. Through our collective efforts to go **GREEN**, we reduce greenhouse gas emissions, save on freight charges and reduce ordering and delivery time.

More about the Dietrich School Scientific Stockroom (DSS)

The unified DSS opened May 20, 2015.

We have products from the former Biological Sciences, Chemistry, and Physics stockrooms, as well as the Excise Tax Free Ethanol Program all in one stockroom.

New suppliers and products are added regularly.

DSS Operations

Stockroom operations are unified into **one** convenient stockroom shopping experience.

- ⇒ One DSS Stockroom instead of multiple stockrooms
- ⇒ One punch-out: All stockroom products, including ethanol, are available through the DSS punch-out
- ⇒ We are open for your convenience 7:30 a.m. - 5 p.m.
- ⇒ BSS and PCS hotlists were transferred to the DSS punch-out, and an ethanol hotlist was added
- ⇒ Personal hotlists are still available
- ⇒ Expanded \$5 per order delivery
- ⇒ Two pick-up locations are available: Chevron, and the Langley Station location
- ⇒ **Note** – Your order will default to “delivery” unless you choose a pick-up location
