Dietrich School Scientific Stockroom

Welcome to the Dietrich School Scientific Stockroom (DSS), the unified operations of the former Biological Sciences and Pitt Chemistry Stockrooms. The DSS maintains a wide variety of scientific products including ethanol, for the convenience of researchers on campus. The stockroom is located in 326 Chevron Science Center, with hours of operation from 7:30 a.m. to 5 p.m. Monday through Friday. When approved by 4:30 p.m., most orders are available for pick up the same day or for next day delivery

Did You Know?

The Dietrich School Scientific Stockroom carries the products most frequently purchased by the University of Pittsburgh research community. These include scientific consumables, chemicals, and office and janitorial supplies. Customers can pick up their orders at 326 Chevron Science Center or 120F Langley Hall/Garage.

Adding an External Note may delay your order. If you have a special request, please place your order and contact the DSS staff at 412-624-8551 with your PO number and request. Note: If an order error occurs, please do not modify the PO. The stockroom does not receive amended purchase orders.

Ordering Tips

You may wonder, "why does the punchout look like Fisher Scientific's Punchout?" The Stockroom is operated with inventory management support from Unity Lab Services (part of ThermoFisher Scientific) and as such, our PantherExpress System is integrated with the Fisher Scientific inventory management system known as RIMS. Our Stockroom catalog now runs off of the Fisher Scientific software platform, which is why it mirrors the regular Fisher Scientific Punchout. More Frequently Asked Questions are also available on the Stockroom webpage

http://researchservices.pitt.edu/facilities/scientific-stockroom.

Option 1.

USING DSS STOCKROOM LISTS

Scroll down to the links for "My Hotlists"

Dry Ice is self-service, bringing a container to hold your dry ice is required:

DSS Stockroom Address: 326 Chevron Science Center

Hours: 7:30 a.m. to 5 p.m. Monday - Friday

http://researchservices.pitt.edu/dss-location-contact-information

Here is an excerpt from our <u>Stockroom Frequently Asked Questions</u> regarding DRY ICE and LIQUID NITROGEN.

To order dry ice and/or liquid nitrogen follow these steps:

1. Go to the storage center for dry ice and liquid nitrogen.

2. Safely obtain the amount of product you need or is available for withdrawal (bring Personal Protective Equipment, appropriate containers for your cryogens).

3. Go to the kiosk, login to your PantherExpress System account, select the Dietrich School

4. Scientific Stockroom (DSS) Punchout and place an order for the amount of dry ice and/or liquid nitrogen you obtained (if you do not have access to PantherExpress, then note the amount obtained and have your department buyer make the purchase for you).

5. This is required for the tracking and management of these products and how your account will be charged.

6. Submit your order, secure the storage center, and return to your lab.

The PantherExpress System order will be approved by the appropriate account approver by next business day. You will receive an order confirmation, which will be for your records only since you already obtained your product.

Q. Can I have Liquid Nitrogen and/or Dry Ice delivered to my lab?

A. No, these items are not ideal for next day shipping. Dry ice and liquid nitrogen evaporate and require insulated storage containers. Kelly Dry Ice is a University supplier in the PantherExpress System. Sources for liquid nitrogen include Pitt Cryogens and Matheson, both in the PantherExpress System. Pitt Cryogens is an internal (University) supplier for Liquid Nitrogen and Liquid Helium. Matheson is a contracted gas supplier in the PantherExpress System. Table of Contents

Ordering by Catalog number

Option 2 a.

Alternatively, you can choose "Rapid Order by Catalog Number"

Buying when you know the catalog Number

Welcome to the Dietrich School Scientific Stockroom (DSS), the unified operations of the former Biological Sciences and Pitt Chemistry Stockrooms. The DSS maintains a wide variety of scientific products including ethanol, for the convenience of researchers on campus. The stockroom is located in 326 Chevron Science Center, with hours of operation from 7:30 a.m. to 5 p.m. Monday through Friday. When approved by 4:30 p.m., most orders are available for pick up the same day or for next day delivery.

Did You Know?

The Dietrich School Scientific Stockroom carries the products most frequently purchased by the University of Pittsburgh research community. These include scientific consumables, chemicals, and office and janitorial supplies. Customers can pick up their orders at 326 Chevron Science Center or 120F Langley Hall/Garage.

Adding an External Note may delay your order. If you have a special request, please place your order and contact the DSS staff at 412-624-8551 with your PO number and request. Note: If an order error occurs, please do not modify the PO. The stockroom does not receive amended purchase orders.

Ordering Tips

The most efficient way to shop the Dietrich School Scientific Stockroom is to utilize **My Hotlists** or **Rapid Order by Catalog Number**.

For additional ordering help, refer to the Shared Research Support Services DSS Information page.

Quick Links

University of Pittsburgh – Dietrich School Scientific Stockroom Catalog

Option 2 b.

Choose Order By Catalog Number also gets you to the same place.

Click the "Order By Catalog Number" link in the top right hand side of the DSS Stockroom punchout.

Chevron: United States Delivery Fee: United States Langley Station: United States

Delivery by Pitt drivers is the University's preferred method of transporting supplies to your laboratory. Since the University's preferred method is delivery, your order automatically includes the delivery charge (Delivery Fee: United States Option).

You can change the order to pick up, after your cart is returned to the PantherExpress System, click on "Return to Shopping cart." Underneath Dietrich School Stockroom, you will see "Delivery Fee: United States".

Click on "Delivery Fee: United States," then click "Chevron: United Stated" to pick up

your item in Chevron. You will not be charged the handling fee and your order will be available to pick up in room 326 Chevron Science Center. After your cart is returned to the PantherExpress System, in the Final Review | Requisition | Summary tabs at the bottom right you will see the Handling charge will be \$0. (Don't see the handling fee click "Proceed to checkout" and look at the right-side frame.)

Please note there is a shipping fee, which will be noted as a Handling Fee on your Purchase Order

We sell some items that are not easy to transport outside of the building. Here are a couple of real world examples of what. The DSS sells some items that are not easy to transport. These items are not available for delivery, but are sold in the Chevron Science Center complex for the research done there. These include a backup of high-pressure gas cylinders, for emergency use we call the Safety Net. Refills on 20 Liter acetone containers would require a 2-day turn around. Acetone is also sold from the DSS in other size containers. Dry ice and liquid nitrogen evaporate and require insulated storage containers. Kelly Dry Ice is a University supplier in the PantherExpress System. Sources for liquid nitrogen include <u>Pitt Cryogens</u> (online at <u>http://researchservices.pitt.edu/facilities/pitt-cryogenics</u>) and Matheson, in the PantherExpress System.
